Name:

Fiscal and Monetary Policy Introduction How monetary and fiscal policy effect GDP

		now moneta	ary ariu risca	ii policy ei	iect GDF			
1) If GDP is	If GDP is down, an increase in <i>what</i> will cause it to go up?							
2) What are	e the four compo	nents that mak	ke up the GDP	?				
3) If C is do	wn, what can inc	rease to off-se	t the decrease	in C?				
-	on, the governm e call this Fiscal P	•	raise GDP by ₋					
Fiscal Policy								
• The	e government ca	n also stimulate	e		How?			
Recession If there is a rece money (\downarrow T)	ssion, the gover	nment will eithe	er		(个G) or make con	sumers spend		
	Policy	Problem	Tool	Tool	GDP			
	Fiscal Policy	Recession	个 Gov. Spending	↓ Taxes	$\uparrow G \rightarrow \uparrow GDP$			

Inflation

If the economy is growing too fast, causing the price level, inflation, to increase...

Then the government can help? How?

If there is inflation, the government will either _____ (\downarrow G) or make consumers spend less money (\uparrow T)

Policy	Problem	Tool	Tool	GDP
Fiscal Policy	Inflation	↓Gov. Spending		$\downarrow G \rightarrow \downarrow GDP$ $\uparrow T \rightarrow \downarrow C \rightarrow \downarrow GDP$

Monetary Policy

- The "Fed" is an independent governmental organization that has control of the
- They help maintain economic growth (increases in GDP) and control inflation

Monetary policy _____

 \downarrow T \rightarrow \uparrow C \rightarrow \uparrow GDP
