

Market Price Equilibrium Learning Stations

Directions: Decide if "demand" or "supply" is affected and circle the appropriate arrow-- ↑ for increase and ↓ for decrease. Next record which "nonprice determinant" of demand or supply is represented by the station. Show the curve shift and decide what will happen to the market price, circle ↑ for increase and ↓ for decrease.

	<u>Demand or Supply</u>				<u>Nonprice Determinant</u>	<u>Draw New Graph</u>	<u>Market Price</u>		<u>Equilibrium Quantity</u>
